How to Install the Logtivity Plugin

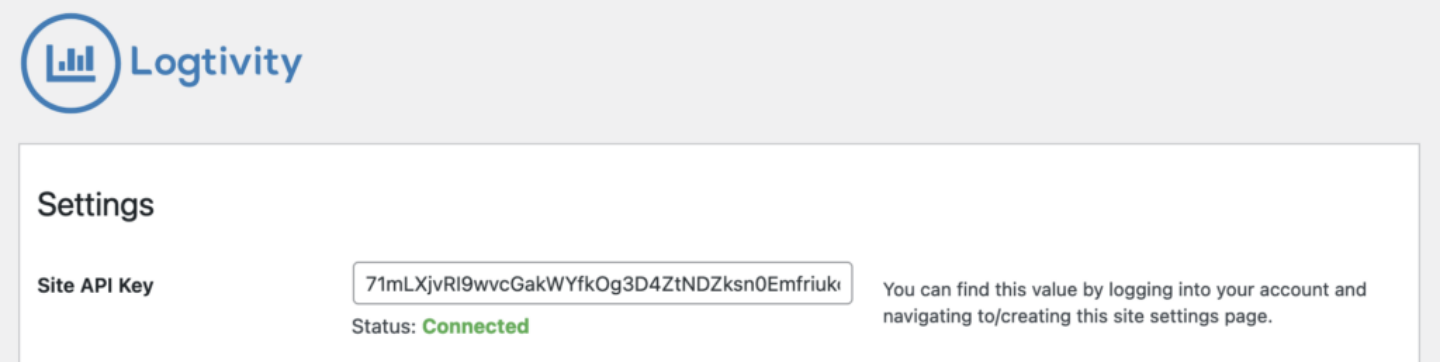

WordPress Plugin · https://logtivity.io/docs/how-to-install-the-logtivity-plugin/

The Logtivity plugin can be installed from inside your WordPress site.

- Visit "Plugins" > "Add New".
- Search for "Logtivity".
- Activate the Logtivity plugin.

- Visit "Logtivity" in your WordPress admin menu, then "Settings".
- Enter your Logtivity API key.
- Click "Update Settings". You will see a green "Connected" message.

- Visit "Logtivity" in your WordPress admin menu.
- You will now be able see your site's activity is being recorded, as in the image below.
